FAST COLOUR PERFORMANCE
THAT IS EQUAL TO
BLACK AND WHITE

MP C2500/3000

High performance multifunctional colour at the speed of black and white

Many businesses today require colour output, but want the speed and performance of an advanced multifunctional device. The versatile Rex-Rotary MP C2500 and MP C3000 are the perfect solutions to meet this growing need. These outstanding multi-tasking devices are a breakthrough for busy workgroups who cannot afford to compromise speed and productivity waiting for highly finished colour documents. They accelerate all your everyday document communications with fast double-sided colour and black and white output.

The Rex-Rotary MP C2500 and MP C3000 bring all your network print, copy, scan and fax needs together in one colour capable device. Their speed, versatility and robust network security will change the way you think about streamlining your workflow and maintaining confidentiality in the general office. Combining superb image quality with versatile finishing options, the Rex-Rotary MP C2500 and MP C3000 deliver professional-looking presentations, reports and booklets every time.

Rex-Rotary's unique approach, links people with knowledge and expertise, combining our wide experience of innovative, document related Products and Software Solutions with our world class Business and Professional Services to deliver the best Total Document Solutions for your business.

Colour performance to match black and white

The Rex-Rotary MP C2500 and MP C3000 will revolutionize the way you think about colour in the general office. Using these fast, efficient multifunctional devices, colour is no longer a time-sensitive luxury. With the MP C2500 and MP C3000, colour is now a cost-efficient everyday advantage that will add impact and memorability to all your documents.

Colour performance can now match that of black and white, with a quick warm-up and minimized cycle down time for maximum efficiency. The powerful MP C2500 delivers an impressive 25 pages per minute (ppm) in both colour and black and white, whilst the MP C3000 is even faster at 30ppm. Rapid double-sided printing on both devices gives a further boost to office productivity.

Superb quality and versatile finishing to transform your documents

The MP C2500 and MP C3000 consistently deliver the highest image quality and offer a wide choice of finishing options to transform your everyday documents into powerful, professional communications. You can produce superb quality colour and black and white documents, including presentations, newsletters and instruction manuals, all in-house.

Your prints and copies can now be hole-punched, stapled, sorted and on your desktop in next to no time. Thicker papers and cards up to 257gsm can also be handled making it easy to create covers and other specialized items in heavier weights.

All-in-one functionality for outstanding productivity

Put outstanding productivity at everyone's fingertips with colour print, copy, scan and black and white fax in one integrated device. These versatile all-in-one devices include high-speed colour and black and white network printing and scanning as standard. They are also surprisingly easy to use with a large, clear LCD touch panel that provides simple, direct access to all functions.

Simplify document distribution with Scan-to-Email and Scan-to-Folder

You will find that distributing documents is easy and cost-effective using Scan-to-Email and Scan-to-Folder on the MP C2500 and MP C3000. With Scan-to-Email simply scan documents in and send them as email attachments direct from these devices. Scan-to-Folder allows large documents to be shared within your organization by sending the scanned document direct to any network folder.

High level network security

Network security is of growing importance for connected businesses today. For complete peace of mind, the Copy Data Security Unit can help prevent sensitive or confidential documents from being copied or printed without appropriate authorization. Any attempt at unauthorized access results in the output being obscured. To safeguard your data and protect your working environment, the MP C2500 and MP C3000 are also equipped with advanced security features including Windows Authentication to control unauthorized usage and access. It provides high security with ease of use by requesting a single user password for access to both PC and MFP.

Connect your digital camera and print photographic images direct to the MP C2500 and MP C3000

Help prevent unauthorized access
to sensitive material with the
Copy Data Security Unit

Direct photographic output

Enjoy quick and easy photographic printing by connecting your digital camera directly to the MP C2500 and MP C3000. This eliminates the need for digital photos to be transferred to a PC before printing and makes it easier than ever to print photographic material for instant business use.

Effortless printing and easy management

Rex-Rotary 's easy-to-use RPCS printer driver makes it incredibly simple to select from the range of black and white and colour output options. Its icon driven interface allows you to simply click to repeat previously saved or common output settings, such as double-sided or 2-Up printing.

Central web-based control

Web SmartDeviceMonitor software gives Network Administrators central control of your connected document devices through a web-browser interface. Easily downloaded and installed, it allows you to manage these devices remotely from any desktop, including automatic configuration to your specifications and group and user profiling. Furthermore, Web SmartDeviceMonitor constantly monitors your document devices to provide proactive communication of their status. By quickly emailing alerts to users, devices are on-line in no time maximizing productivity.

Seamless integration with your network

The network ready MP C2500 and MP C3000 support all major networks and industry standard printer languages for seamless integration into your network environment. They include USB2.0 as standard for quick desktop connectivity and also offer Wireless LAN for users needing a mobile connectivity option.

In harmony with the Environment

Our products are designed to be kinder to the environment. We are committed to developing technologies that conserve energy and help prevent global warming. Our aim is to reduce the impact on the global environment, whilst continuing to enhance user comfort levels. The MP C2500 and MP C3000 reduce unnecessary paper consumption by offering double-sided printing.

Outstanding Software and Services

Complementing the MP C2500 and MP C3000, Rex-Rotary offers a superb range of Software Solutions and Services, which are designed to add value and ensure that our devices continue to operate seamlessly and reliably. Covering all aspects of your business, including document management, network control, consultancy, training and unrivalled support, these innovative products and services offer a tailor made solution to improve productivity, workflow efficiency and cost control throughout your organization.

Aficio™

The Rex-Rotary MP C2500 and MP C3000 bear the Aficio Symbol – your sign of digital technology, innovation and customer support in action.

Identical speed in both colour and black and white

At last, colour multifunctional performance equals that of black and white. Colour output presents many new opportunities for improving the impact and memorability of your documents. With the MP C2500 and MP C3000, you can now transform ordinary general office documents into colourful, highly finished, professional-looking communications.

Macintosh 8.6 or later (OS X Classic),
Macintosh X v10.1 or later (native
mode), IBM® System i5™ HPT, SAP R/3,
NPDS Gateway, AS/400 using OS/400
Host Print Transform

Copier

Copying process
Laser beam scanning & electro
photographic printing

Copy speed
B/W & Full colour: 25/30 copies per
minute[1]

Resolution
600dpi

Multiple copy
Up to 999

Warm-up time
Less than 45 seconds

First output speed
B/W/Full colour: 6.7/9.7 seconds

Zoom
25 - 400% (in 1% steps)

Memory
Standard:
1,024MB + 40GB Hard Disk Drive

Paper input capacity
Standard: 2 x 500-sheet paper trays
            1 x 100-sheet bypass tray
Maximum: 3,100 sheets

Paper output capacity
Maximum: 1,500 sheets

Paper size
A6 – A3 (A3+ via bypass tray)

Paper weight
Paper trays: 60 – 216g/m²
Bypass tray: 60 – 257g/m²
Duplex tray: 64 – 169g/m²

Dimensions (W x D x H)
650 x 659 x 740mm

Weight
Less than 120kg (with ARDF)

Power source
220 - 240V, 50/60Hz

Power consumption
Operation: Maximum 1.5kW
Energy saver mode: Less than 99W
Auto off mode: Less than 8W

Scanner

Scan speed
Maximum 50 originals per minute
(MH, A4)

Resolution
Maximum 1,200dpi (1,200dpi TWAIN
black and white, greyscale)

Original size
A5 – A3

Output formats
PDF/JPEG/TIFF/High compression PDF

Bundled drivers
Network, TWAIN
